BASIN BRASS WASTES

BENEFITS

FULL BRASS PRODUCTS

Products 100% in chrome plated brass for a perfect reliability.

CHROME
PLATED
BRASS
NSS 200h

TOP COATING QUALITY LEVEL

All our products are compliant with the NSS 200h test (ISO 9227) with the top level test result (Grade 10 - ISO 10289) : the guarantee against corrosion.

RELIABLE INSTALLATION - NO LEAKS GUARANTEED

All our slotted models are delivered with a body waste, in order to prevent any risk of leakage. We provide also a complete kit of washers, whose hardness has been specially studied to guarantee a perfect joining to the basin.

50 000 CYCLES OPENING/ CLOSING RESISTANCE

All our quick-clac mechanism have been tested to resist, at least, to 50 000 opening/closing cycles.
> The guarantee of more than 34 years of use ! *

RELIABLE, QUICK AND EASY INSTALLATION

Thanks to the ergonomic nut and body waste and kit of washers included.

All the range is GUARANTEED 5 YEARS.

*4 opening/closing cycles per day.

INSTALLATION WITH STANDARD BASINS

For installation with standard basins, we offer products with standard lengths, with or without body waste, slotted and unslotted and with a large choice of opening / closing system.
